

Standard Installation Terms and Conditions 2019

'Back to Back' Installation Example

Back to Back Installation:

Based on a standard brick and tile, single story, domestic residential house, with the head unit mounted on an external wall, with 3 metres of interconnect/pipework and 10 metres of mains power cable, with the condenser mounted at ground level on a hardstand within 20km of purchasing store.

Inclusions

- 3 meters refrigerant pipe (interconnecting cable); 10 meters electrical wiring up to 3kW to local power supply subject to manufacturer approval (excluding Fujitsu) **this is only available to customers who have RCD protection on GPO circuits;**
- Above 3kW installation will be connected to the meter box including 10 metres electrical wiring (isolation switch and circuit breaker supplied if required) and 3 metres refrigerant pipe (interconnect) is included;
- Internal unit mounted at no higher than 2.4 metres;
- External compressor mounted at ground level on a solid hardstand (e.g. paving/concrete), to be laid by customer or additional costs for laying customer hardstand may apply;
- It is the customer's responsibility to remove all furniture for access for installation. No responsibility will be taken;
- Trade or commercial sales may incur additional fees;
- All installations subject to site inspection;
- Delivery fees apply and are not included with installation;
- As per Fujitsu manufacture warranty all condensers are installed on aero stands at an additional charge of \$33 per unit
- Cancellation of installation within 24 hours (week day) may incur a charge of \$180 per unit;
- All extras above standard back to back installation will be payable on the day of installation to installer;
- Pricing schedule for additional installation extras available in-store or on our website: www.iccool.com.au

IF YOU EXPERIENCE ANY PROBLEMS PLEASE CALL I.C.COOL PRIOR TO CALLING THE MANUFACTURERS.

All installations undertaken by **qualified installers**.
